

Call for Papers

27th International Conference on Probabilistic, Combinatorial and Asymptotic Methods for the Analysis of Algorithms (AofA 2016)

Krakow, Poland, July 4–8, 2016

The 27th International Conference on Probabilistic, Combinatorial and Asymptotic Methods for the Analysis of Algorithms will be held in Krakow, Poland, on July 4–8, 2016. The website of the event is

<http://www.aofa2016.meetings.pl/>.

Program Committee:

Nicolas Broutin, INRIA Rocquencourt, France
Jacek Cichoń, Wrocław UT, Poland
Michael Drmota, TU Vienna, Austria
Hsien-Kuei Hwang, Academia Sinica, Taiwan
Mihyun Kang, TU Graz, Austria
Jakub Kozik, JU Kraków, Poland
Gábor Lugosi, UPF Barcelona, Spain
Markus Nebel, TU Kaiserslautern, Germany
Ralph Neininger (co-chair), GU Frankfurt, Germany
Marc Noy, UPC Barcelona, Spain
Daniel Panario, Carleton Univ., Canada
Alois Panholzer, TU Vienna, Austria
Bruno Salvy, INRIA Lyon, France
Michèle Soria, Paris 6, France
Henning Sulzbach, McGill, Montréal, Canada
Brigitte Vallée, Caen Univ., France
Stephan Wagner, Stellenbosch Univ., South Africa
Marek Zaionc (co-chair), JU Kraków, Poland

Steering Committee:

Nicolas Broutin, INRIA Rocquencourt, France
Michael Drmota, TU Vienna, Austria
Conrado Martinez, UPC Barcelona, Spain
Bob Sedgewick, Princeton Univ., USA
Michèle Soria, Paris 6, France
Brigitte Vallée, Caen Univ., France

Organization/Contact:

[Marek Zaionc](#), JU Kraków, Poland
[Ralph Neininger](#), GU Frankfurt, Germany
[Katarzyna Grygiel](#), JU Kraków, Poland

Scope. Analysis of algorithms is a scientific basis for computation, providing a link between abstract algorithms and the performance characteristics of their implementations in the real world. The general effort to precisely predict the performance of algorithms has come to involve research in analytic combinatorics, the analysis of random discrete structures, asymptotic analysis, exact and limiting distributions, and other fields of inquiry in computer science, probability theory, and enumerative combinatorics. (see <http://aofa.cs.purdue.edu/>)

We invite papers in

- analytic algorithmics and combinatorics,
- probabilistic analysis of algorithms,
- randomized algorithms.

We also welcome papers addressing problems such as: combinatorial algorithms, string searching and pattern matching, sublinear algorithms on massive data sets, network algorithms, graph algorithms, caching and memory hierarchies, indexing, data mining, data compression, coding and information theory, and computational finance. Papers are also welcome that address bridges to research in related fields such as statistical physics, computational biology, computational geometry, and simulation.

Confirmed keynote speakers:

Jean Bertoin, Zürich Univ., Switzerland
Paweł Błasiak, Polish Academy of Sciences, Kraków, Poland
Hsien-Kuei Hwang, Academia Sinica, Taipei, Taiwan
Bob Sedgewick, Princeton Univ., USA — FLAJOLET LECTURE
Wojtek Szpankowski, Purdue Univ., USA
Nick Wormald, Monash Univ., Australia

Submissions. We invite you to submit an extended abstract (12 pages) or a short abstract for a poster (2 pages) via the Easy-Chair system:

<https://easychair.org/conferences/?conf=aofa2016>.

The proceedings will be published electronically and selected papers will be published after the conference in the journal *Combinatorics, Probability and Computing*.

Important dates:

Submission deadline: **February 12, 2016.**
February 19, 2016.

Notification: **April 22, 2016.**

Final version: **May 13, 2016.**

Early registration: **May 13, 2016.**

If you intend to submit a paper, please consider submitting a title and a short abstract early.
